Penalty Software

## MULTI-USER EDITION INSTALLATION GUIDE

### Installing TaxInterest Software in a Network Environment

Your multi-user edition of TimeValue Software™ TaxInterest™ IRS/State interest and penalty software is designed to operate efficiently on your network. It supports multiple users running the program from the same director, and individual setup files for each user.

#### To install the multi-user edition of TaxInterest software on our network server

1. Insert the TaxInterest program CD in the CD drive. After a few moments, the installation screen will appear. If the installation screen does not automatically appear, click Start and choose Run. Type D:SETUP (or the applicable letter of your cd drive) and press Enter.
2. Follow the on-screen instructions to complete the install. The TaxInterest program installation will default to C:TAXINT. Change the destination drive to that of your network drive if needed.

#### To create a program group and icon for each user/workstation

Perform the following setup form each workstation after installing TaxInterest software on your network server. The following steps are not needed if a shortcut to the network edition already exists on the workstation.

1. Navigate to the directory where you installed the multi-user edition of the program (e.g., F:\TAXINT).
2. Double-click on WorkstationSetup.exe from the TaxInterest program directory.
3. Follow the on-screen instructions. This routine will add desktop shortcuts and required reporting files to the workstation.
